

INFRASTRUCTURE SECURITY AWARENESS

ISA Overview

The Infrastructure Security Awareness (ISA) program was created in September 2004 to share vital, for official use only (FOUO) information and ensure timely dissemination of critical infrastructure protection guidance and intelligence with private sector professionals who have a "need to know."

The ISA program is an information exchange and communications platform among private sector professionals sharing homeland security awareness, prevention, response, mitigation, and recovery information facilitated by the Statewide Terrorism & Intelligence Center, the designated state of Illinois fusion center.

Why Join?

The ISA program is a venue where the private sector intersects with the fusion center for the timely and actionable exchange of information. Membership includes:

- Option to receive daily briefs and situation reports .
- Receive For Official Use Only (FOUO) intelligence notes created by STIC, as well as by other federal, state, and local partners .
- Access to the Homeland Security Information Network (HSIN) portal.
- Participation in a monthly intelligence webinar.
- Contact with a dedicated private sector/critical infrastructure specialist.
- Attend bi-annual ISA meetings to strategize and exchange ideas.
- Availability 24/7/365
- Share strategic and tactical information to include information requests, suspicious activity reporting, threat assessments, and trend analysis.

What is a fusion center?

A center established by state and local governments designed to integrate the collection, analysis, and dissemination of law enforcement, public safety, and terrorism information.
